EXPERIENCE

Tentrox Studios private limited

2D Texture Artist

Feb 2025 – Present

Tamil Nadu, India

- Created high-quality digital assets including SVGs, normal maps, pattern designs and color-rich textures using Affinity Photo and GIMP.
- Ensured visual consistency across assets, improved design quality and usability.

Tentrox Studios private limited

3D Model Cleanup Technician

Mar 2023 – Jan 2025

Tamil Nadu, India

- Processed and prepared STL 3D models in Geomagic Wrap for efficient scan remeshing.
- Cut, trimmed and filled holes in scanned objects to remove unwanted geometry and refine shapes.

PROJECTS

Forever - Ecommerce Web Application

Built a e-commerce web application that enables users to browse products, add items to the cart and manage purchases efficiently. Utilized React.js for the frontend, implemented state management for dynamic user interactions and used Tailwind CSS for responsive user-friendly UI design.

Agency.ai – Responsive Landing Page

Built a responsive landing page that presents company services and added dark/light theme to improve user accessibility. implemented web3forms for users to connect or request services in simple way.

Expense Tracker Web Application

Built a expense tracker web application that helps users to monitor income and expenses and gain better insights into their spending. Implemented dynamic UI updates and real-time balance calculations using Vanilla JavaScript, ensuring a responsive and user-friendly experience.
