CAREER OBJECTIVE

Frontend Developer specializing in React.js and JavaScript (ES6+), with hands-on experience building responsive web applications. Seeking to join a dynamic team where I can apply my expertise in UI development, state management, and performance optimization to deliver scalable, high-quality user experiences in fast-paced, agile environments.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Framer Motion

State & Routing: Context API, React Router DOM

API: REST APIs (Fetch, Axios)

Tools: Git, GitHub, Vite, npm, Vercel

Dev Tools: VS Code, Chrome DevTools

PROJECTS

Forever - Ecommerce Web Application

Tech Stack: React.js, React Router DOM, Tailwind CSS

- Built a scalable product listing system handling 50+ items with optimized rendering
- Solved inefficient product filtering by implementing dynamic filtering and price sorting logic for better user experience
- Managed complex state (cart & wishlist) using Context API, ensuring consistent updates across components
- Designed reusable component architecture to reduce code duplication and improve maintainability

Agency.ai – Responsive Landing Page

Tech Stack: React.js, Tailwind CSS, Framer Motion, Web3Forms

- Developed a fully responsive UI, solving layout inconsistencies across multiple screen sizes
- Improved user engagement by implementing smooth animations using Framer Motion
- Integrated and handled form submission using Web3Forms API with proper validation and error handling
- Implemented dark/light theme toggle with state management for better accessibility and UX

Expense Tracker Web Application

Tech Stack: HTML, CSS, JavaScript

- Solved real-time UI update challenges by dynamically updating DOM without page reload
- Implemented accurate CRUD operations with synchronized state updates to maintain correct balance calculations
- Used Local Storage to persist user data, ensuring data retention across sessions

PROFESSIONAL EXPERIENCE

Tentrox Studios private limited

03/2023 – Present

2D Texture Artist

Tools: Affinity Photo, GIMP

- Created high-quality digital assets including SVGs, normal maps, pattern designs, and color-rich textures
- Ensured visual consistency across assets, improving design quality and usability

EDUCATION

Bachelor of Computer Applications (BCA)

06/2018 – 04/2021

Sanghamam College of Arts and Science
